

# *What can Braketex<sup>®</sup> do for you?*

## **Case study**

Tribco part # C-2800, Braketex<sup>®</sup>-lined friction discs, are running in brakes on Caterpillar 777 haul trucks at Mackellar Mining outside Kalgoorlie, Western Australia. Previous friction life for this application averaged 7,000 hours. Tribco parts were installed in one of a fleet comprised of 777 & 785 trucks, while OEM frictions were used on the other trucks. The original Braketex<sup>®</sup>-equipped wheel unit now has 13,000 hours and counting. Tribco Braketex<sup>®</sup> frictions are now being used throughout the fleet.

Braketex<sup>®</sup> 13,000 hours and still running

OEM average 7,000 hours
